## **2.6 MINORITY & WOMEN-OWNED BUSINESS PARTICIPATION**

In accordance with the legislative findings and policies set forth in Chapter 39.19 RCW, the state of Washington encourages participation in all of its contracts by firms certified by the Office of Minority and Women's Business Enterprises (OMWBE). Participation may be either on a direct basis in response to this solicitation or on a subcontractor basis. However, no preference will be included in the evaluation of bids, no minimum level of MWBE participation shall be required as a condition for receiving an award and bids will not be rejected or considered non-responsive on that basis. Any affirmative action requirements set forth in federal regulations or statutes included or referenced in the contract documents will apply. The established annual procurement participation goals for MBE are 10 percent and for WBE, 4 percent, for this type of project. These goals are voluntary. Bidders may contact OMWBE at 360/753-9693 to obtain information on certified firms.

## **2.7 ACCEPTANCE PERIOD**

Bidders must provide 30 days for acceptance by DISTRICT from the due date for receipt of bids.

## **2.8 RESPONSIVENESS**

All bids will be reviewed by the RFB Coordinator to determine compliance with administrative requirements and instructions specified in this RFB **especially public work responsibilities, section 3**. Project Engineer will review all bids to determine compliance with all technical specifications. The CONTRACTOR is specifically notified that failure to comply with any part of the RFB may result in rejection of the bid as non-responsive.

In addition to bid responsiveness, DISTRICT awards contracts to the lowest responsible bidder, defined in RCW 43.19.1911, as follows:

(9) In determining "lowest responsible bidder", in addition to price, the following elements shall be given consideration:

(a) The ability, capacity, and skill of the bidder to perform the contract or provide the service required;

(b) The character, integrity, reputation, judgment, experience, and efficiency of the bidder;

(c) Whether the bidder can perform the contract within the time specified;

(d) The quality of performance of previous contracts or services;

(e) The previous and existing compliance by the bidder with laws relating to the contract or services;

(f) Such other information as may be secured having a bearing on the decision to award the contract: PROVIDED, That in considering bids for purchase, manufacture, or lease, and in determining the "lowest responsible bidder," whenever there is reason to believe that applying the "life cycle costing" technique to bid evaluation would result in lowest total cost to the state, first consideration shall be given by state purchasing activities to the bid with the lowest life cycle cost which complies with specifications. "Life cycle cost" means the total cost of an item to the state over its estimated useful life, including costs of selection, acquisition, operation, maintenance, and where applicable, disposal, as far as these costs can reasonably be determined, minus the salvage value at the end of its estimated useful life. The "estimated useful life" of an item means the estimated time from the date of acquisition to the date of replacement or disposal, determined in any reasonable manner. Nothing in this section shall prohibit any state agency, department, board, commission, committee, or other state-level entity from allowing for preferential purchase of products made from recycled materials or products that may be recycled or reused.

## **2.9 COSTS TO BID**

The DISTRICT will not be liable for any costs incurred by the CONTRACTOR in preparation of a Bid submitted in response to this RFB, in conduct of a presentation, or any other activities related to responding to this RFB.

The DISTRICT Chairman or an employee delegated by the Chairman who was not involved in the procurement will consider the record and all available facts and issue a decision within five business days of receipt of the protest.

If additional time is required, the protesting party will be notified of the delay. In the event a protest may affect the interest of another CONTRACTOR that submitted a bid, such Contractor will be given an opportunity to submit its views and any relevant information on the protest to the RFB Coordinator.

The final determination of the protest shall:

- Find the protest lacking in merit and uphold the DISTRICT's action; or
- Find only technical or harmless errors in the DISTRICT's acquisition process and determine the DISTRICT to be in substantial compliance and reject the protest; or
- Find merit in the protest and provide the DISTRICT options which may include:
  - Correct the errors and re-evaluate all bids, and/or,
  - Reissue the solicitation document and begin a new process, or
  - Make other findings and determine other courses of action as appropriate.

If the DISTRICT determines that the protest is without merit, the DISTRICT will enter into a contract with the apparently successful contractor. If the protest is determined to have merit, one of the alternatives noted in the preceding paragraph will be taken.
