New Business:

Japanese Knotweed Update – Sites were treated on May 18th. Infestations were very accepting to the herbicide application and showing mortality after one week.

Mediterranean Sage Update – A single aerial application took place in April by CJ Air. Two ground applications will take place in June and late fall. Kodie has completed assessments for Med. Sage locations off Hwy 129 and Meyers Ridge.

USFS Treatment Report – Roughly 20 acres were treated in the Lick Creek area. Target species were scotch thistle, rush skeleton, yellow starthistle, knapweed species, houndstongue, and mullein.

Integrated Pest Management Programmatic Guidelines – The IPMP intends to assist landowners and operators with addressing pest concerns on property they own and/or

manage. Cost-share assistance will only be provided when a best management practice (BMP) addresses an identified and documented resource concern.
