

# Asotin County Noxious Weed List

## Classification Description

**Class A** - Non-native species whose distribution in Washington is still limited. Preventing new infestations and eradicating existing infestations are the highest priority. *Eradication of all Class A plants is required by law.*

**Class B** - Non-native species presently limited to portions of the State. Species are *designated* for required control in Asotin County where they are not yet widespread. Preventing new infestations in Asotin County is a high priority. In Asotin County where a Class B species is already abundant, control is decided at the local level, with containment as the primary goal.

\* Indicates a class B species designated for required control in Asotin County. Designated class B species are eligible for Early Detection, Rapid Response Funds.
