

Unknown Classification, Vascular Plant List:

**Asotin County**

Asotin County, Washington

Asotin County, WA. Combination of plant lists , with the addition of names of plants in the UW and WSU herbaria that were collected in Asotin County. List prepared by Don Knoke, 2004.

**600 species** (510 native, 90 introduced)

**Key to symbols:**

\* = Introduced species.

+ = Species is represented by two or more subspecies or varieties in Washington; the species in this list has not been identified to subspecies or variety.

# = Species name could not be resolved to an accepted name; the name may be misspelled.

**Numeric superscripts** after a scientific name indicates the name was more broadly circumscribed in the past, and has since been split into two or more accepted taxa in Washington. The possible accepted taxa names for Washington are provided after the species list, keyed by superscript.

Accepted names and family classifications are obtained from the [Washington Flora Checklist](#) and the [Revised Flora of the Pacific Northwest](#), managed by the [University of Washington Herbarium at the Burke Museum](#). Relevant synonyms are indicated in parentheses.
